About

● I am a gradually retiring and diversifying judge (a Master) in the King's Bench Division, a chartered psychologist & mediator, in London. I formerly practised at the Bar. I collaborate with academia & charity on issues affecting humanity. I started to move to a portfolio career a couple of years ago, in part thanks to **gender critical extremist hate**, and gendered death threat material. I was the first known 'trans' judge for many years.

Sometimes called a "direct and dangerous threat to our democracy and respect for the rule of law", I was lead claimant in the 'McCloud' pension case, for sex & other discrimination, causing reversal of £19bn public sector pension cuts.

**** a bit of justice for a free speech force for good ****

Very pleased to see HHJ Kaul KC getting some recognition for the work she has put in on behalf of UK judges, in a world where **sadly judges get abuse and vexatious public or private attacks from #bullies, #gendercriticalextemism or #racists.**

Many people have quietly been helped by her, she deserves this thoroughly.
